HOLISTIC LIFE MISSION

DR. SATYA
FOUNDER | PRESIDENT

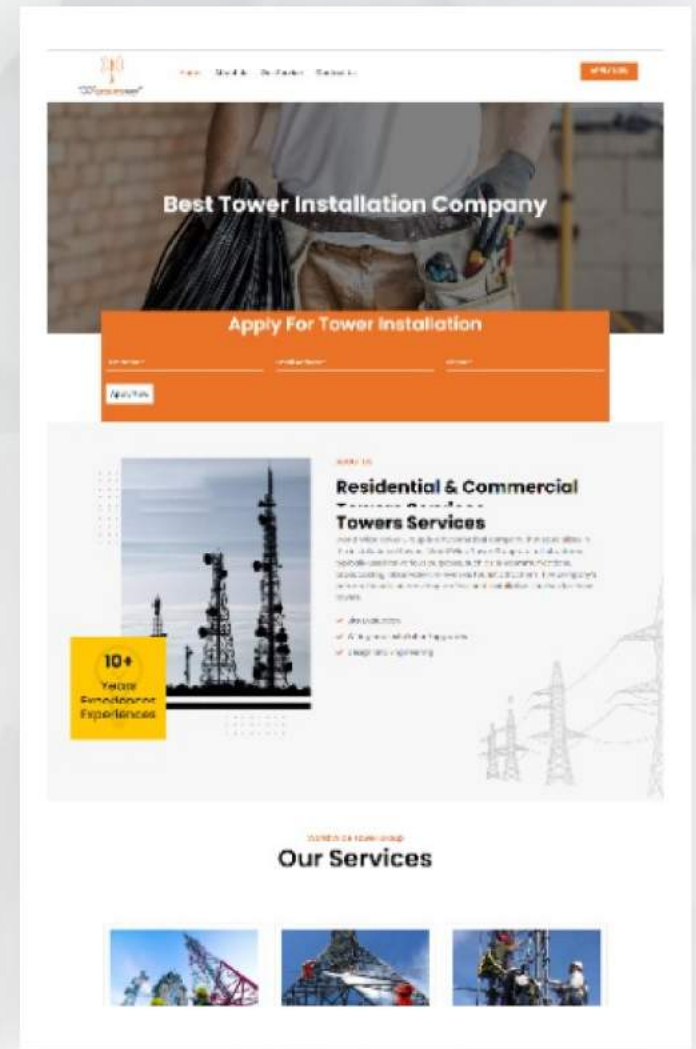

Most individuals are shaped by past happenings, but there are some who shape their personality of the moment. I am one such individual. Like in the present and carry no baggage from my past. Therefore, to know my, you have to know me in my present. For me the past does not exist. It's fleeting. It's as moment as your last breath. The reputation of myself is not based by any particular region, caste or ethnicity. My name also indicates, all my personal, social, and spiritual enterprises revolve around the one great truth, "Honesty, transparency, and I try to reach through my actions" rather to live up to the motto that my life is my message. Like most of us, I have studied physical sciences and have the usual exposure to the modern higher education. But I do not feel any need to see much from that exposure, and that's why it does not even influence my contribution as an individual, as a spiritual seeker. My knowledge of Yoga and meditation is more intuitive than scriptural or academically acquired. It means, Yoga is a well-rounded arena of knowledge with definite key facts.
